1	An arms and ammunition dump is located south of the road line between Vrutky (050/X60) and Sucany. Be wire enclosed compound are of reinforced concrete ground and one story underground. Rail spur lines railroad stations lead into the depot. Ammunition from factories in Dubnica and Povazska Bystrica. to the IV Military District in Bratislava and is a assigned to it. In the western section of the to	uildings within the , with two storics e from the Vrutky a n is brought to the This depot is subc cuarded by a unit p	barbed- above and Sucany depot ordinate commanently

- of a signal company of the 1th Signal Regiment in Turciansky Svaty Martin. South of the ammunition dump is an underground ammunition factory which was started in 1930, but remained incomplete until 1945. The plant employs about 1,700 persons in the filling of artillery ammunition.
- 2. Northwest of Nemsova (P49/T59) on the railroad to Lednicke Rovne is an ammunition dump consisting of nine reinforced concrete buildings with one story above ground and one underground. A railroad spur line connects the dump with the railroad line to Trencianska Tepla. Alarm sirens are mounted on the headquarters building and the power transformer building and set to sound when any of the three entrances to each depot building is tempered with. The commander of the military unit stationed at the dump is Lt. Colonel Karel Barton of the Quartermaster Corps.
- 3. A supply and emmunition dump was built north of Brusno (749/C96) in 1930 and enlarged in 1950. This dump is under the administration of the garrison at Brezno nad Hronom and is guarded by a thirteen man unit from Brezno.
- 4. A partly underground camouflaged ammunition dump was built west of Nove Mesto nad Vahom during the period of the Slovak State. Amounition is transported to the depot by truck. This dump is subordinate to the IV Military District in Bratislava.
- 5. A camouflaged ammunition dump consisting of five blocks of three buildings each is located in the wood between Chlum (N51/L38) and Maxov (N51/L28) about five kilometers southeast of Rakovnik.
